### **A Proactive Approach to IAQ: Saving Money and Protecting Health With Preventive Maintenance**

This 1-hour training on indoor air quality (IAQ) in schools—

- Outlined the benefits of preventive maintenance practices in schools, such as a high return on investment, improvements in equipment longevity, and a reduction in unexpected and often costly repairs.
- Prepared participants to integrate preventive maintenance and IAQ management strategies to save money and protect health.
- Highlighted the best practices of school district mentors to identify and implement the major components of an effective preventive maintenance program—proactive routine and regular maintenance and repair—to ensure that equipment and facilities perform reliably.
- Demonstrated how to develop a business case, a value proposition and a communication strategy that generate broader acceptance of, compliance with and funding for IAQ preventive maintenance strategies.

Presented by U.S. Environmental Protection Agency Indoor Environments Division
