### Know the Drill for Healthy IAQ: Training School Staff and Occupants to Reduce Indoor Asthma Triggers

This 1-hour training on indoor air quality (IAQ) in schools—

- Trained staff to identify, recognize and address indoor environmental asthma triggers and perform the essential actions for effective asthma management in schools.
- Prepared participants to design and successfully implement a staff training system as part of a sustainable IAQ management program.
- Demonstrated how to effectively use the School IAQ Assessment Mobile App—new technology featuring the *IAQ Tools for Schools* Action Kit—as a teaching tool to identify and reduce asthma triggers in the school environment.
- Highlighted successful strategies to reduce asthma attacks, increase attendance and improve academic performance through an effective staff training program and implementation of the *IAQ Tools for Schools* Framework.

Presented by U.S. Environmental Protection Agency Indoor Environments Division
