Healthy Schools, Healthy Students: Taking Action to Improve IAQ in Your School District

This 1-hour training on indoor air quality (IAQ) in schools—

- Prepared participants to successfully implement the *IAQ Tools for Schools* Framework and systematically address IAQ issues with policies and practices that save money and improve health.
- Demonstrated how to conduct regular walkthrough assessments and take simple, low-cost actions to prevent or correct environmental health issues in school facilities using the School IAQ Assessment Mobile App—new technology featuring the *IAQ Tools for Schools* Action Kit.
- Highlighted best practices used by a school district facility director who successfully implemented *IAQ Tools for Schools* and improved IAQ in his school district.

Presented by U.S. Environmental Protection Agency Indoor Environments Division
