**Green, Clean and Healthy:
Effective Cleaning and Preventive Maintenance for a Healthier School Environment**

This 1-hour training on indoor air quality (IAQ) in schools—

- Described the importance and benefits of implementing a proactive green cleaning program that emphasizes IAQ and preventive maintenance practices.
- Highlighted effective green cleaning strategies as part of an integrated IAQ preventive maintenance plan, which can save money and protect health.
- Prepared participants to assess current cleaning and IAQ preventive maintenance practices to identify areas in which to increase efficiency, improve reliability and reduce exposure to toxic chemicals.
- Demonstrated how to replicate the strategies used by a school district mentor to develop a successful approach to planned and predictive green cleaning and maintenance.

Presented by the U.S. Environmental Protection Agency Indoor Environments Division

April
