## **Clean Bill of Health: How Effective Cleaning and Maintenance Can Improve Health Outcomes in Your School**

This 1 hour training:

- Explained the effect of proper cleaning and maintenance on student, staff and building health and performance.
- Outlined appropriate standards for “clean” in a school environment and how to achieve them.
- Prepared participants to develop and implement a preventative maintenance plan to reduce costs and improve health by using effective cleaning practices.
- Identified cleaning and maintenance training programs that could be established to increase efficiency and protect the health of the cleaning staff.
- Recognized proven criteria for choosing safe and appropriate cleaning products using national tools and resources.

Presented by the School Health and Indoor Environments Leadership Development (SHIELD) Network
