## **Making the Case for Environmental Health, Academic Performance and High-Performing Facilities**

This 1 hour training:

- Explored the most compelling and motivational evidence for Indoor Air Quality (IAQ) management in schools.
- Highlighted the value of creating a green and healthy school.
- Demonstrated return on investment and other results school districts are achieving, such as increased cost savings and improved student performance.
- Identified IAQ issues unique to schools.
- Prepared participants to take action to implement IAQ management plans that address health, academic performance and facility efficiency.

Presented by the School Health and Indoor Environments Leadership Development (SHIELD) Network
